Associated Press Staff Correspondent
CONFERENCE HALL, London, June 12.—The World Economic Conference, the most momentous assembly in recent history, got under way this afternoon with delegates from virtually every nation on earth gathered to try to end the big slump.

King George himself, in acknowledgement of the importance of the occasion, formally opened the first plenary session in the great new geological museum in Kensington, despite the fact he was suffering from severe rheumatism which recently has compelled him to avoid public appearances.

The King-Emperor's address was in effect a prayer for the success of the conference which has been called to bring aid to suffering humanity.

Ramsay MacDonald, Great Britain's picturesque Prime Minister, who is president of the conference, followed with an impassioned plea for co-operation and action, and dealt somewhat with the machinery of the conference.

CONFERENCE HALL, London, cheers from the vast crowd assembled in the street. He entered the assembly hall in the midst of absolute silence, which was the tribute of the conference delegates. He read his speech slowly and in a strong voice before a silver and gold microphone. When he had concluded he took a seat and leaned forward in an expectant attitude while a League of Nations interpreter again read the speech.

After the translation the whole packed hall again stood and the King bowed slowly to the delegates, who bowed in turn. He then walked forward in an expectant attitude while a League of Nations interpreter again read the speech.

RAMSGONG
As he took the stand the Prime Minister put a button which rang a big gong and called the delegates to their seats.

NEW RELIEF RATE FOR DRUMHELLER

DRUMHELLER, June 12.—With an agreement reached between growers of the Drumheller valley and the provincial government whereby stores will set staples for relief recipients at a ten per cent margin of profit, one step further has been taken in arriving at a plan for the relief of the unemployed in June 1, agreed to return to work after a three week's strike on condition that a thorough investigation into their problem be made.

A. A. McKenzie, relief commissioner, replying to a question from the Central Council of Unemployed, has announced that he will visit the district within the next 10 days to take up all contentious problems with the men with a view to establishing the new rate before the summer.

According to W. W. Gillemer, chairman of the local growers' committee, the new rate will be five per cent higher than Calgary cost plus prices due to additional freight costs. It is believed that new arrangements mean a saving of approximately seven per cent to the government.

WORLD FLIER RESTS UP AT KHABAROVSK

Mattern's Plane Being Serviced for Flight to Nome, Alaska

WEATHER IS BAD

Desperate Effort to Make Up for Lost Time Fails Saturday

By STANLEY F. RICHARDSON Associated Press Staff Correspondent MOSCOW, June 12.—Jimmie Mattern caught up on badly-needed sleep today at Khabarovsk, Siberia, while his plane was being prepared for the trans-Pacific hop.

He tired was a veteran when he flew across the world last year, and he immediately went to sleep and gave officials no chance to ask about his plans.

No reports had been received up to noon here today as to the time for his take-off for Nome, Alaska, but it was expected that heavy weather lay ahead of him on his way to Kamchatka peninsula, in the northeast of Khabarovsk. From there, he planned to fly to Edmonton, Alta., and last stop before reaching the United States.

THREE DAYS BEHIND
On his arrival at Khabarovsk he was three days behind the pace set by Wiley Post and Harold Gatty in 1931, and had given up challenging them.

CONFERENCE TRIBUTE
His Majesty had arrived amidst June 12.—Following is the text of the speech today as chairman of the World Economic Conference.

"On behalf of His Majesty's government in the United Kingdom I offer you all a hearty welcome to London. I hope your stay here will be pleasant, above everything else profitable in results, and that when you leave you will have carried the name of London Economic Conference amongst those great international gatherings which have brought blessings to mankind."

"The purpose of this meeting is of the gravest importance. Seven governments have been invited, 10 who are not members of the League, and the importance attached to our purpose is recognized by the fact that practically all our governments invited has accepted the invitation."

GREAT AUTHORITY
"There is greater authority gathered in this hall today than has perhaps ever been brought under one roof in the world's history."

"The economic life of the world has been with a view to a decline which has closed factories, limited employment, reduced standards of living."

LONDON, June 12.—Stabilization of the major currencies within a wide range was forecast this afternoon as the first definite accomplishment of the world economic conference.

This was the expectation of high financial authorities close to the British delegation. These experts said that as a result of negotiations today at the treasury among British, American and French representatives, it was agreed that stabilization could be arranged for the duration of the conference.

A wide range would be necessary, it was said, in order to conciliate opposing views.

The three-power banking session at the treasury preceded the opening of the world economic conference and was held with the utmost secrecy.

WILLING TO ASSIST
The French are most eager to get the pound and United States dollar stabilized, and it was understood they were willing to assist the king today formally opened by placing at the disposal of the federal government a bank which would serve as a bank which would be needed in order to keep the Paris market within a determined range.

Scientists On Last Lap

VANCOUVER IS PREPARING TO GIVE BANQUET

Savants Pay Visits to City's Places of Natural Interest

VANCOUVER, June 12.—Two excursions, Saturday and Sunday, concluded a week of intensive work for delegates to the fifth Pacific science congress and today will see them here before breaking up Thursday.

On Saturday afternoon the scientists visited Capilano Canyon and Grouse Mountain. Today they were guests of the Union Steamship company on a cruise to Howe Sound to acquaint the delegates with British Columbia's scenic beauties.

The sixth and final general assembly of all the scientists is scheduled for Monday morning to discuss the effects of the introduction of alien plant and animal forms in Pacific countries.

The remaining papers on the program will be read in sectional meetings Tuesday. One feature of the session will be a lecture in the anthropology section by Dr. David H. Black, Canadian scientist, whose discovery of the "Peking Man" in China made him world-famous. He will tell of his unearthing of a skull which is considered to have belonged to the oldest human being known.

A number of honorary degrees of doctor of laws and letters will be granted by the University of B. C. to visiting scientists at a ceremony Tuesday afternoon which will be presided over by Chancellor R. E. McKechnie.

As Flier Crashed

Volunteer workers are shown as they labored to recover the body of J. Oliver Beebe (inset), prominent student flier, of Boston, Mass. from the wreckage of his plane, after it had crashed into a marsh outside East Boston airport. Beebe, who was 38, was the father of two children, who were waiting for their dad at the airport.

ITALIAN FLIERS HOP WEDNESDAY

ORBITELLO, Italy, June 12.—Departure of the Italian trans-Atlantic squadron on its flight by stages to the Chicago Fair via Quebec province, has been set tentatively for 7 a.m. Wednesday. Twenty-four planes, named by 26 men, are to participate.

Letters For Air Mail Will Be Accepted

OTTAWA, June 12.—Letters for air mail to be carried by the Italian squadron from Shediac, N.B., and St. Hubert airport, Montreal, to Chicago, will be accepted, it is announced by the post office department. The planes are expected to reach Shediac on June 23.

Matters' Brother Returns Home

Disappointed at the non-arrival of his globe-girdling brother, Jimmy Matters, from Siberia, Roy Matters left the city Monday, to return to his home in Calgary. He plans to rush back here when definite word of the flier's arrival is forthcoming. Two nephews of the flier, Maynard and Gordon Ball, also returned to Calgary.

Matters is still at Khabarovsk, and until he leaves there, it will not be possible to form any accurate estimate of the time of arrival.

Edmonton, Captain James A. Ball, airport manager, has completed all arrangements for the servicing and reception of the flier's plane.

From Khabarovsk, Matters will fly to Nome, Edmonton and New York, his starting point nine days ago.

Pilot Gilbert Takes First Plane Into Great Bear Lake

To Walter Gilbert, chief pilot of the Canadian Airways flight in the Mackenzie river area, goes the distinction of being the first pilot to land a plane in Great Bear Lake this season.

Pilot Gilbert landed at Cameron Bay at 4 p.m. on Saturday in the big new Junkers all-metal monoplane, he recently brought west from Winnipeg. E. T. Hundell, western mining man, was his passenger. This is the earliest, by one hour, that a plane has landed there.

Other Canadian Airways machine movements are Pilot J. Rythel, southbound from Akivik with mail from Fort Resolution. W. "Wop" May at Lesser Slave lake with Indian department officials.

Mrs. J. R. Boyle Tells of the Wonders of the Orient

JAPAN, the land of cherry blossoms, had become Japan, the land of chrysanthemums, when the Hon. Mrs. Boyle and her daughter of Edmonton sailed into harbor last October, on the first stop of their round-the-world trip. After a two weeks' ocean journey from Victoria, and from Alberta, where the skies had turned grey and the dry season of late fall had deepened, the world of turning leaves, the glory was again the land of flowers, and the soft breeze of the east was not the bitter wind from the north that they had left.

Met by the Hon. Herbert Marler and Mrs. Marler, they found their way to Japan one of the most delightful of the lands they landed until they set sail for China.

Yokohama, Tokio and Nikko were colorful places for Japan included in the itinerary of Mr. and Mrs. Boyle. In Nikko it was the maple trees that were the attraction to the visitors. In Lakeview, Canada, the former home of Mrs. Boyle, only the maple leaves are no bigger than the tip of a finger and are shimmering.

SACRED BRIDGE OF NIKKO

At Nikko, the sacred bridge over which only the Emperor and his entourage are allowed to travel, and which is opened only once a year, was visited. The bridge is a small stream and the legend tells that it is a sacred man made stream to cross the river could not be crossed, and the bridge was a miracle two dragons came and, with their tails, raised the bridge to its present position.

Canada Jews Organize

ANTI-SEMITIC TEUTONS WILL BE COMBATTED

Mass Meeting at Toronto Formulates Plan to Aid Hebrews

TORONTO, June 12.—A mass meeting last night terminated a two-day conference of Jews from all over Canada drawn together by a common desire to combat anti-semitism in Germany.

As a means of furthering their plans it was decided to revive the defunct Canadian Jewish congress and to launch a campaign to gather funds for the relief of German Jews, a permanent Dominion relief committee to be formed for this purpose.

The conference also went on record as being in opposition to the granting of letters of incorporation to the Nazi party of Montreal, application for which has already been made to the Quebec government.

H. M. Chiselman of Montreal, secretary of the first Jewish congress formed in 1910, was chosen national secretary of the provincial association. The first session of congress will take place in Montreal, Oct. 22.

DeMille Still Wears Riding Breeches and Boots And Sports a Different Set Each Day

ALTHOUGH they were wed in Havana last January, Helene Costello, film actress, and Arturo de Cordoba, Cuban movie director, plan to re-marry in Hollywood just to make sure their marriage is legal under United States law, since Mrs. Costello's divorce from Lowell Sherman was not final at the time of the first ceremony. They are shown here as they filed notice of intention to wed at the Los Angeles marriage bureau.

HOLLYWOOD, June 12.—A reporter gets turned loose in Hollywood: Cecil B. DeMille walking toward his set garbed in riding breeches and boots... that was the customary garb for directors years ago... but all other directors have given them up for ordinary clothes... not DeMille though... he likes to put on a show... and he usually wears different breeches with boots to match every day.

Joe LaBarra wandering over toward the set where 30 scantily clad chorus girls are working... he just can't seem to stay away... Mae West leaving the studio at noon to go home to her apartment... she is the one star in Hollywood who prefers an apartment to a home with a lawn and gardens... Myrna Loy also leaving the studio... chaffed by her maid.

Loretta Young and Una Merkel making the best of their lunch hour by rolling an old fire around the studio... Bill Haines stopping his car in the middle of the street to retrieve his briefcase... the salesman guaranteed him it wouldn't blow off to go home to her apartment... his own opinion is that he should have let it go.

Robert Young and Mary Carlisle riding bicycles and carrying roller skates... not for transportation according to their maid.

And That's Why They Remark 'O, You Poor Fish!

CHICAGO, June 12.—You folks who pamper goldfish and puppies—it's setting you cold. There is nothing as cold as a fish, as unappreciative as a fish, as William H. Brunsell today. Brunsell is somewhat of an authority on fish emotions, having just returned from the South Sea where he and his four aides collected 1,300 species for the John G. Shedd aquarium.

"Fish," he said, "keep that aloof air even when eating and they are just as happy to be by your side as a stranger as to their owner."

A decrease of 3,553,300 bushels was reported in the stocks of wheat in store for the week ending May 12, compared with the previous week.

STRICTLY LAWS; HEAVY FINES BRING SPREE

Continued from Page One
by order. One man chose this today and got away with it. Accused of stealing a pig, this stocky, handsome little bundle of mischief leaped to his feet and put on a war dance of denial. Whoever said he stole that pig was a liar! It was his pig. Always had been, all ways would be. He'd raised the pig from a baby.

ELECTED TRIAL BY TORTURE
The judges gravely scratched themselves and finally muttered something that seemed to mean, "So what?" They were all ready to snatch that porker for themselves when the man demanded trial by torture. Almost instantly some crackling charcoal was brought in, piled up with wood. Flares leaped in the damp jungle air. An iron pot slung on a tripod was hung over the fire and filled with oil, wax and water.

"You are ready?" the judges demanded. "Here and now." The flames leaped and the water soon took on a bubbling boil. I couldn't help but think that 20 years ago this would have been a cannibalistic orgy. It was a brutal life-of-the-wild sort of eating. Perceptive-looking men scowling about the fire, about the smoke, about the victim. But this victim was not much like a chap all ready for the stew pot. He was cocky as a sergeant-at-large.

"Now the man demands a demand—At once the stocky little prisoner plunged his hand into the boiling water, hoisted out a leg and proudly flung it at the feet of the tribunes.

WELL: TRY THE ACCUSER
Then he dashed after the stove and out of his hand he examined it. It showed no scald, no blister. It was hardly even warm. The judges gravely considered this and turned the man free. I looked at the hand, and it was not burnt and apparently had no hope on it to momentarily keep the boiling heat away. Certainly, water was boiling and the idea of the wax and oil in the pot was to make it cling to the flesh easier.

At the little man with the big belly was set loose his accuser, jerked unmercifully to his feet and set on trial for false accusation. Seemed baffled, mentally all fogged up.

The trial itself was just nothing; the accuser was fined two pigs as "satisfaction." All through the proceedings I could pick out the word "satisfy." Several were heard. "Satisfy your jars, some articles," which probably meant anything handy, and others were heard "satisfy."

"How come this saying?" I asked the skipper. "It's a fine line between a fine itself given to the person who's been hurt or robbed or injured like that. Satisfy for to the whole town."

"So the town will get these two pigs?" "Why, surely; already people have been told to pay satisfaction in rice, rice, yams, coconuts, buffaloes, fish and other things. All that stuff is collected by the skipper that big fellow with the double sword. He prepares a big feast with it and the village has a spree."

TAKES OATH WITH SALT
"A spear after every court!" "Indeed, salt!"

"That holding court is just a great big family picnic!" The old boy didn't answer. A woman with a twinkling in her deep eyes had picked up handfuls of salt and was jabbering away about some fellow. "Did you pick her up?" the skipper asked. "Well, what did he do except to pick her up?" the court asked. "He followed me on the path to the water hole!"

"And then?" "Then he followed me back again."

"And what else, woman, what else?" He wanted me to come in his boat with him. "No."

"Probably because you couldn't get out of the house—that so?" The girl twisted the gold coins in her shirt but didn't answer.

"Did you object?" I didn't like it. "I knew there would be trouble."

"Yes, well, there is. You are both fined \$20. The girl's father told up to yell some objection, but they are just as happy to be by your side as a stranger as to their owner."

A decrease of 3,553,300 bushels was reported in the stocks of wheat in store for the week ending May 12, compared with the previous week.

EARN RIGHT TO PLAY CALGARY BY 2-0 VICTORY

Brown and Ness Get Goals In Shutout Defeat Edmonton City

Scoreless twice in the opening half of the game, Radial Rovers fought their way to a 2-0 victory over Edmonton City in the final of the Dominion of Canada Challenge Cup at the Municipal Stadium on Saturday night.

By their triumph, Radials earned the right to meet the Southern Alberta winners in the provincial final, to decide the team to represent this province in the playoffs that lead to the Canadian championship and possession of the famous soccer trophy.

Edmonton City had a strenuous fight throughout the 90 minutes of play, but the street railwaymen had secured in the opening half of the contest.

BROWN COUNTS FIRST
The winners secured an early lead in the first few minutes of play when Brown, center, followed a corner kick, which he had sent in, to take the ball into the goal.

Anderson made a fine opening for Brown but he was unable to get his foot to the ball. The City relieved the pressure, with Hoyle and Barton clearing and Brown giving the forwards a run. Brown, Graham, Douglas and a free kick to Radials let the second goal for Radials and they reached the halfway mark leading by 2-0.

RADIALS HAVE EDGE
While there was no scoring in the second half, it was well fought, with the eventual losers trying desperately to tie the game. Radials came back to add to their total when Bannan got in for a hard drive, which just went over the bar.

Play was over from one end to the other with both teams having a fair share of the game, although the play had lost a lot of pep when the referee, Mr. J. H. Thompson, gave an infringement. Following this, Radials had the most of the play but they were unable to score.

Referee: D. Ness; Savage and Kerr; Winter, McKee and Thompson; Pugh, Brown, Bannan, R. Ness and Anderson.
Edmonton City: Mann, Hoyle and Barton; Marston, Douglas and McLeish; Johnson, J. Graham, Brown, R. Graham and Holmes.
Referee: Bill Thompson.

It is expected that Elchuk will be on the mound for the Arrows, while the Red crew will be represented by Rusty Wynn or Carl Lockie.

On the other hand Rusty Wynn has a game to even with the ducky Elchuk batter and will be out there putting plenty of smoke behind his speed ball.
